

5-7 June 2023, Tlemcen, Algeria

ISFF7 Program Oral presentations

1 st Day : 05 June 2023	
08 :00- 10 :00	Welcoming the participants / Registration
09 :00-10 :00	ISFF7 Opening Session and Welcome note Rector University of Tlemcen, Minister of higher education, Ambassador of Japan, Commissioner for ESTI, AUC
	Session 1, Chair : Prof Tetsuya Sumi, Co-Chair : Ziani Cherif Chewki
10 :00 -10 : 15	University of Tlemcen Presentation Prof. Hamza Cherif Ali , University of Tlemcen
10 : 15 -10 :30	Contribution du ministère de l'Hydraulique dans la lutte contre les inondations Representant of the Ministry of Hydraulics
10 : 30 -10 :50	JICA's Activities for Algeria, M. OWADA Kei , JICA, Japan JICA's Approach to Climate Change, Japan Mr Mitomori, Koji , JICA Tokyo
10 :50 -11 :10	Overview of ISFF Past, Present, and Future Perspectives Dr Sameh Kantoush , Kyoto University, Japan
11 :10 – 11 :30	Coffee break/ Poster Session
	Session 2, Chair : Prof. Chicgoua, Co- Chair : Prof. Megnounif Abdesslam
11 :30 -12 :00	Les plans de prévention du risque inondation (PPRI) Mr. Benmouffok Hocine, Mme Dalinda Mekideche Agence de gestion intégrée des ressources en eau (AGIRE) et Agence nationale de ressources hydrauliques (AGIRE et ANRH), Algeria

Institute for Water
and Energy Sciences
(incl. Climate Change)

5-7 June 2023, Tlemcen, Algeria

12 :00- 12 :30	Contribution of Earth observation satellites in the management of flash floods. Case of In Guezzam August 2018. Mr. Nasreddine Belabid , Algerian space Agency (ASAL)
12 :30 – 13 :00	Water Resources Management in Oman Challenges and Achievements Eng. Ahmed Al Barwani , Oman Water compagny, Oman
13 :00 – 13 :30	Discussions/ Poster Presentations
13 :30 – 14 :30	Lunch Break – Poster Session
	Session 3, Chair : Prof. Mihoubi Mustapha Kamel, Co-Chair : Prof. Sihem Benabdellah
14 :30 -14 :50	The rôle of Water Harvesting projects in mitigating climate change's impact in rural area (Badia) Eng. Abeer Sabha , Ministry of Water Resources, Jordan
14 :50 -15 :10	Le défi de la gestion des risques de catastrophes dans les nouvelles dimensions prises par les CCs Dr. Naima Rabahi ep. Touloum , Délégation nationales des risques Majeurs (ministère de l'Intérieur et des collectivités locales et de l'aménagement du territoire)
15 :10 -15 :30	Contribution de l'ONA dans la prévention et la lutte contre les risques d'innondations Mme Hadji Karima , Office national de l'assainissement, Algeria
15 :30 -15 :50	Prevention of major risks : Development of the risk culture within the population Mme Soraya Makhloufi , Direction de la protection civile, Algeria
15 :50 -16 :10	Stratégie de lutte et programme d'actions contre l'envasement Mr Houglaouène Mourad , Agence Nationale des barrages et de transfert, Algeria
16 :10 – 16 :30	Le système d'alerte de Météo Algérie Mr Hamadache Rafik , Direction de l'exploitation Météorologique/ONM-Dar El Beida, Algeria
16 :30 -17 :30	Discussions/ Poster Presentations Closing session 1 st Day

5-7 June 2023, Tlemcen, Algeria

2nd Day : 06 June 2023

Plenary session	
09 :00- 09 : 30	Japanese Contributions on Dam upgrading including heightening, new bottom outlet and sediment management Prof. Tetsuya Sumi , Kyoto University, Japan
09 :30 -:09-40	ATRST Presentation
Session 1, Chair : Prof. Ahmed Sefelnasr, Co-Chair : Prof. Hamouda Boutaghane	
09 :40- 10 :00	Quantitative evaluation of suspended solids runoff from large-scale collapsed areas as the source of turbid water, Prof. Mitsuteru Irie , Kyoto University, Japan
10 :00 – 10 :20	Understanding the Hydrological Impacts of Climate Change : Exploring Rainfall Variability, Trends, and Erosion Dynamics for Effective Sediment Management. Prof. Megnounif Abdesslam , University of Tlemcen, Algeria
10 :20 – 10 – 40	Soil characterization of the eastern strip of Al Jaww Plain, its possible relationships with the shallow groundwater aquifer, and the flash flood hazards, Al Ain city, UAE Dr. Saber Hussein , UAE University
10- 40 : 11 :00	Shallow water-table Rise in urban areas of Arid zones Dr. Ali Al-Maktoumi , Sultan Qaboos University, Oman
11 : 00- 11 :30	Discussions/ Poster Presentations /Coffee Break
Session 1, Chair : Prof. Mitsuteru Irie, Co-Chair : Prof. Lefkir Abdelouhab	
11 :30 - 11 : 50	Impact of climate change on hydrodynamics of lakes in the central rift Valley basin, Ethiopia Prof. Benedict Mutua , Egerton University, Kenya
11 :50 – 12 : 10	Correction of Regional Climate Model Using Satellite Based Rainfall Data, Case Study: North West of Egypt Prof. Ashraf M. Elmoustafa , Ain Shems University, Egypt

5-7 June 2023, Tlemcen, Algeria

12 :10 -12 :30	Forecasting the Influence of Climate Change on El Hamma Dam Inflow using the SWAT Model for Efficient Dam Management Prof. Jamila Tahrouni , Carthage University, Tunisia
12 :30 – 12 :50	Modeling the impact of climate change on water resources and crop yield in a Tunisian agricultural watershed using SWAT Manel Mosbahi , Tunisia
	Multitemporal UAV surveys of geomorphological changes by severe postfire heavy rain in Japan Dr. Yoshiya Toge , Kyoto University, Japan
12 :50 – 13 :30	Discussions / Poster Presentations
13 :30 – 14 :30	Lunch Break – Poster Session
	Session 3, Chair : Prof. Ashraf M. Elmoustafa, Co-Chair : Prof. Jamila Tahrouni
14 :30 -14 :50	Evaluation of flood risk using high-resolution LiDAR data and the HEC-RAS river modeling : A case study of the Mouhoun River in Burkina Faso Dr. Aouissi Jalel , National Agronomic Institute of Tunisia, Tunisia
14 :50 -15 :10	Multi-model approach for flash flood modelling in data- and water-scarce regions like Jordan Dr. Christina Maus , Koblenz University of Applied Sciences, Koblenz, Germany
15 :10 -15 :30	Quantifying the predictive uncertainty in hydrological modeling for a Coastal watershed in Tunisia Prof. Sihem Benabdallah , CERTE, Tunisia
15 :30 -15 :50	Modelling Flood Risk in Arid Urban Environment: The Case of Wadi Ain Sefra (SW of Algeria) Dr. Abdessamed Derdour , Naama, Algeria
15 :50 -16 :10	Mitigating Flash Flooding in the City : Drain or Harvest ? Prof. Noubactep Chicagoua , University of Göttingen, Germany
16 :10 – 16 :30	Assessing the status of flood disaster in Ethiopia: challenge in achieving sustainable development goals Prof. Awoke Guadie , Ethiopia
16 :30 -17 :30	Poster session/ Discussions

5-7 June 2023, Tlemcen, Algeria

Closing session 2nd day

3rd Day : 07 June 2023

09 :00 - 09 :30	Plenary session Hydrological and hydraulic Modelling of Sediment transport in Algeria, Case of Hodna Basin in Algeria Prof. Mahmoud Hasbaia , University of M'sila, Algeria
09 :30- 09 :50	Session 1, Chair : Dr. Ali Maktoumi, Co-Chair : Dr. Bessedik Madani Machine Learning approaches for Flood Susceptibility Mapping Dr. Mohamed Saber , Kyoto University, Japan
09 :50 – 10 :10	Velocity profiles modeling using information theory and Artificial Neural Networks : A comparison of approaches. Dr. Abdelhadi Ammari , ENSH, Algeria
10 :10 – 10 – 30	Satellite Precipitation Products and Machine Learning Techniques as Solutions for Hydrological Modeling in Ungauged Basins. Dr. Tayeb Boulmaiz , University of Ghardaia, Algeria
10- 30 : 10 :50	Coffee Break – Poster Session Session 2, Chair : Prof. Sameh Kantoush, Co-Chair : Prof Chérifa Abdelbaki Understanding and quantifying the impact of climate change on extreme precipitation and flooding events over the Nile River basin Hadir Abdelmoneim , Alexandria University, Egypt
	Evaluation of recent vegetation phenology changes across the southern Mediterranean region, and potential climatic drivers

5-7 June 2023, Tlemcen, Algeria

	<p>Dr. Behnam Mirgol, Coventry University, Centre for Agroecology, Water and Resilience, United Kingdom Modelling Current and Future Impacts of Rainfall on Cereals Yield in West Africa: Case Study of Maize and Rice. Lawrence Blay, PAUWES, Algeria</p>
12 :30 – 13 :30	General Discussions Closing Session/ Recommandations ISFF 8 Announcement
13 :30 – 18 :00	Lunch and Touristic Visit

5-7 June 2023, Tlemcen, Algeria

2nd Day : 06 June 2023

Special Session / SATREPS Project (Parallel session)

Participants

University of Tlemcen

- Prof. Chérifa Abdelbaki
- Prof. Abdesslam Megnounif

University of Annaba

- Prof. Hamouda Boutaghane

University of Ghardaia

- Dr. Tayeb Boulmaiz

University of M'sila

- Prof. Mahmoud Hasbaia

AGIRE

- Mr Mohamed Deramchi
- Mr Benmouffok Hocine

PAUWES

- Research Team

University of Kyoto

- Prof Sumi Tetsuya
- Dr Sameh Kantoush
- Dr. Mohammed Saber

ENSTP

- Prof. Abdelouahab Lefkir

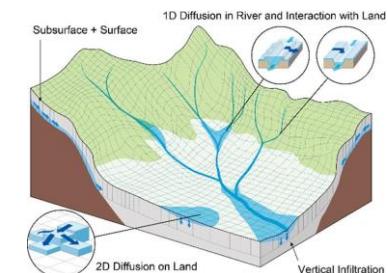

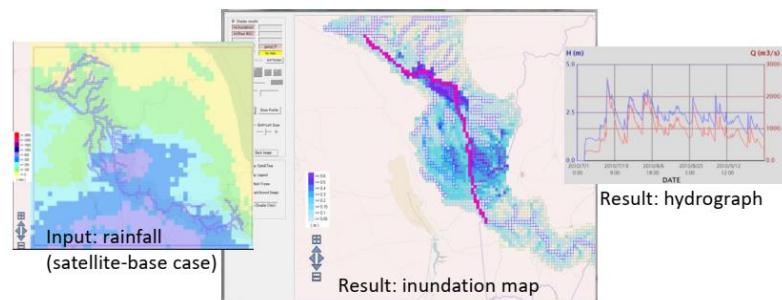

5-7 June 2023, Tlemcen, Algeria

4th Day : 08 June 2023

Training Course on RRI (Rainfall-Runoff-Inundation) Model

RRI Model

Rainfall-Runoff-Inundation model simulates hydrologic processes such as rainfall-runoff, stream-flow discharge, and inundation over floodplains in an integrated manner. The RRI model can be used to assess flood risk for various regions with different climate conditions.

Trainer's Contacts

Dr. Mamoru Miyamoto
e-mail: mmiyamoto@pwri.go.jp

Dr. Kensuke Naito
e-mail: naitou-k574cl@pwri.go.jp
International Centre for Water Hazard and Risk Management (CHARM)

Participants :

University of Tlemcen, University of Annaba, University of Ghardaia, University of M'sila, AGIRE, ANRH, PAUWES, ENSTP, SOGERHWIT.

Institute for Water and Energy Sciences (incl. Climate Change)
